SUMMARY

Ambitious and results-driven Information Technology graduate with practical exposure to software development, web technologies, cyber security, and AI-powered solutions. I have honed my skills in Python, JavaScript, and full stack development, alongside a strong foundational understanding of cyber security concepts such as network security, threat detection, and ethical hacking tools. Well-organized and self-directed, with demonstrated ability to work independently or as part of a team to solve problems. Passionate about developing innovative IT solutions, enhancing system security, and staying ahead of technological trends.

WORK EXPERIENCE

JON East Digital Media **CERTIFICATE** **June 2025**

- Assisted in developing and maintaining dynamic web applications using Laravel and MySQL.
- Designed responsive user interfaces using Tailwind CSS and JavaScript.
- Collaborated with senior developers to optimize website performance and fix bugs.
- Worked on RESTful APIs and integrated third-party tools for client projects.

Exatech Computers – Web Developer **CERTIFICATE** **September 2025**

- Designed and developed responsive, user-friendly websites using modern web technologies.
- Implemented front-end features with a focus on performance, accessibility, and UI/UX best practices.
- Integrated RESTful APIs and external tools to extend application functionality.
- Diagnosed and resolved bugs, improving overall system efficiency and reliability.
- Supported website maintenance, hosting, and domain management tasks.
